

Average Water Use in Gallons Per Day (gpd)

- The spreadsheet below shows water use by service Identification Number (ID#). Contact the office at 831-335-5774 or forestlakes@cruzio.com for a reminder of your number, if necessary.
- **We are under Stage 1 Conservation** - this requires mandatory water limit of 250-gpd, averaged over the monthly meter-reading period. Repeatedly exceeding the 250-gpd maximum limit will result in Excessive Use fees and a mandatory water-use audit.
- To stretch our water supply, we'd like to ask everyone to voluntarily try to conserve 15% more. While we recognize this may not be possible for everyone, we do think every bit we can save is important.
- Having a safe, reliable water supply is critical to protecting our biggest investment – our homes.
- PLEASE be water-wise in every way you can. Low-flow toilet, showerhead, dishwasher and washing machine rebates are being offered. See our website (www.forestlakesfelton.com) for instructions.
